combine, either directly or indirectly.

When the coal monopoly put up the price of anthracite coal without any justification and restricted the output in order to hold the consumers at its mercy there was such a general outery against it that the law had to interfere for the public protection. But what kind of protection has been secured? Nominally the combination was overthrown. But the price of coal continued excessive, and to day that article of absolute necessity is made to yield an undue profit, competition is abolished and the combination is as complete and as effective as ever.

Indeed, for some cause, the encroachments of monopolies seem to be bolder and more confident than ever. What is To what does the silence of Divver due profit, competition is abolished and
